The `authoryear-comp` style

This style is a compact version of the `authoryear` style which prints the author only once if subsequent references passed to a single citation command share the same author. If they share the same year as well, the year is also printed only once. This style will implicitly enable the `sortcites` package option at load time.

Multiple citations

Aristotle 1877, 1929, 1968; Knuth 1986a,b,c
